

Indiana Drug Enforcement Association

Evansville LETB Accredited Undercover Agent Training

Since 1986, IDEA has been providing training to law enforcement officers being assigned to undercover operations. The primary focus, of this 40 hour course, is on the officer and what is to be expected in this aspect of police work.

Training will cover ethics, informant handling, use of correct electronics equipment, use of undercover funds, and other topics essential for this job.

This course will lean heavily on a set of hands-on practical exercises conducted under the watchful eye of seasoned undercover agents. The learning experience from working agents is an invaluable experience every undercover agent should benefit from.

Undercover School is about you, the agent, and your ability to cope with the everyday stresses and perform in a safe and professional manner, while building strong prosecutable cases.

Whether your job is narcotics, organized crime, homeland security, or any investigation requiring an undercover operation, this course is a must!

For 2012 the tuition for this course will be waived, if you are assigned to a Byrne-Jag funded Drug Task Force in Indiana; those tuition costs will be picked up under ICJI funding. Officers not covered by Byrne-Jag will be required to pay a tuition fee of just \$50.00

All seats in this class are on a first come, first serve basis, and seating is limited.

All registrations are non-refundable. The standard tuition cost of \$695.00 will apply for those who register and fail to attend.

Dates:

August 6 - 10, 2012
